

New Zealand Club Competition Plaque

Awarded to the New Zealand NZART Branch, DX Club, or Contest Group with the greatest number of Single Operator entries in the Oceania DX Contest by its members.

For each branch/club/group the number of participating member stations is equal to the sum of the number of stations submitting logs in the PHONE section and the number of stations submitting logs in the CW section.

In case of a tie between two or more branch/club/groups, then the scores of the individual participating stations will be totalled for each entrant and the plaque will be awarded to the branch/club/group with the highest total score.

Please note that:

To qualify as a participant, a station must log at least 50 valid contacts during either the PHONE or CW sections of the contest.

A station that logs at least 50 QSOs in the PHONE section AND at least 50 QSOs in the CW section is deemed to qualify twice as a participant.

To be eligible for the plaque, a branch/club/group must submit a minimum number of 3 participant member stations.

Only local branch/club/groups in New Zealand are eligible for this award - national organisations, clubs or groups like NZART are not eligible.

The committee reserves the right to request further information from any branch, club, or group about its membership.
